1.1. Overview	1

1. Introduction to RUX Fund Accounting

1.1. Overview

Education Organizations are non-profit economical sector that serves such an important part as school education.

Non-profit organizations must to deliver accurate results under constrained budgets. Effectively managing the numerous transactions across multiple funding sources can be difficult without the right business systems to consolidate this information.

With Microsoft Dynamics 365 Business Central user gets financial harmony in the day to day operation process that is integrated with the email, CRM, and network.

Open Door Technology (ODT) Business Central for Education Suite (ES) allows to unify financials' and operations across school divisions, and drive new operational efficiencies to support regulatory compliance and report, automate key functions, and is easy to learn for new users.
